

Free For All

Should we make these tests free for all states?

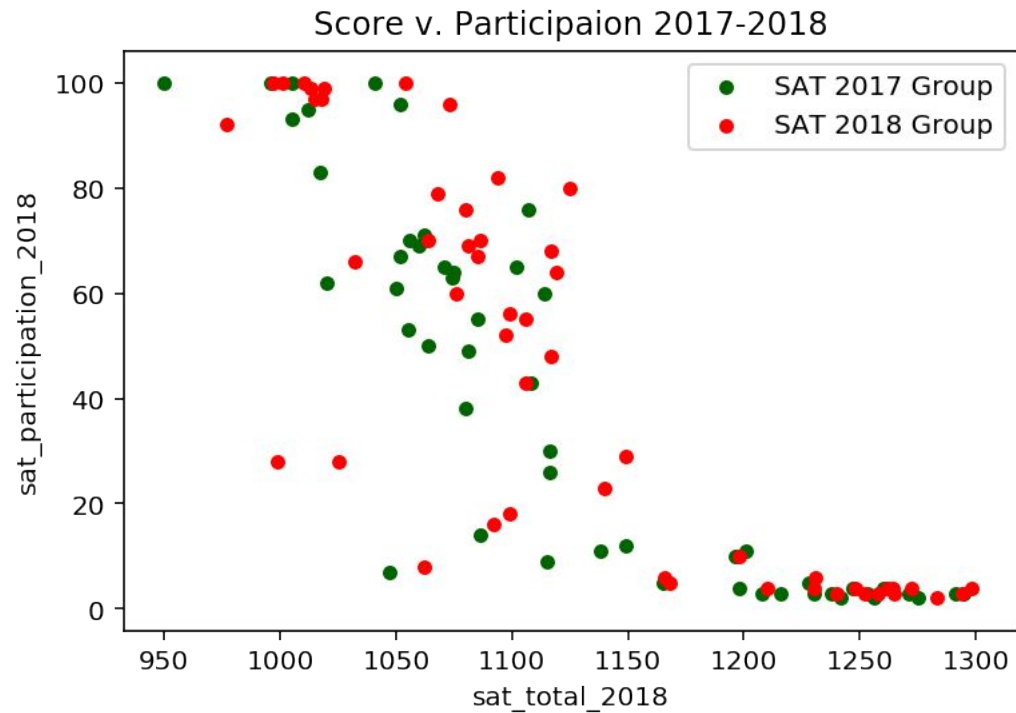

Participation v. Scoring 2017

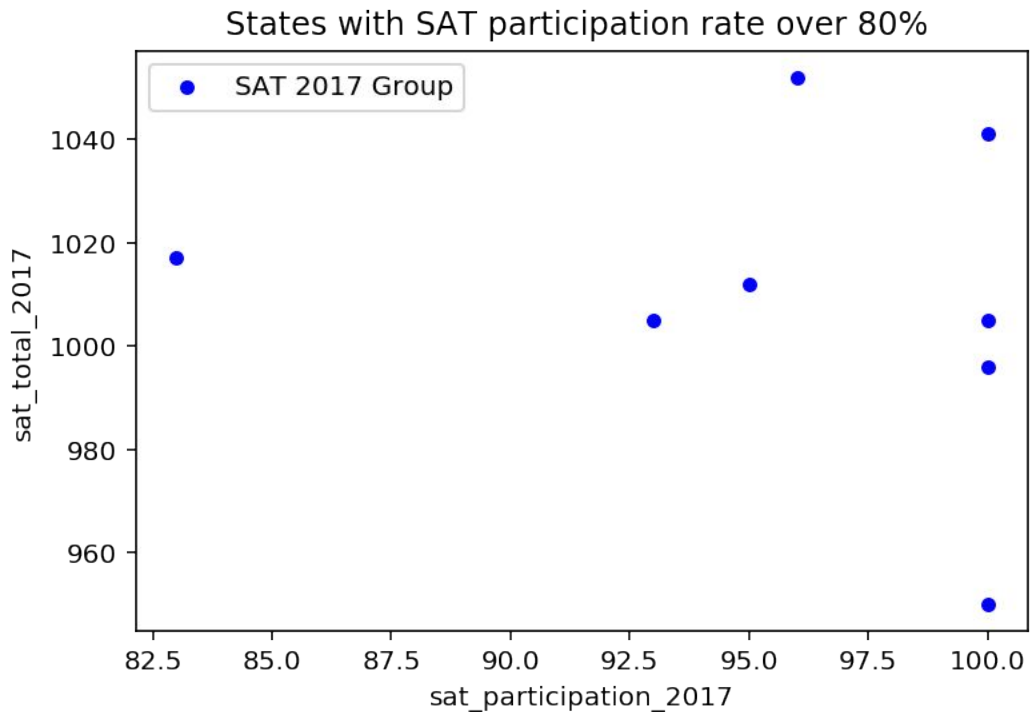

Participation v. Scoring 2018

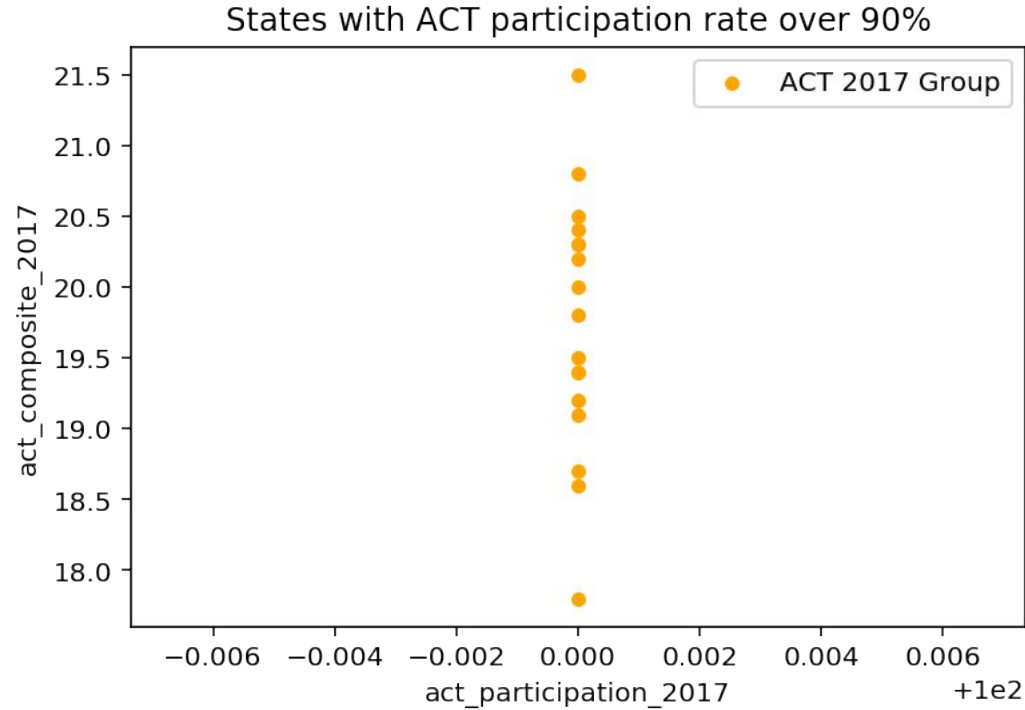

Rates for 2017-2018

SAT participation rate greater than 80% in 2017

ACT participation greater than 90% in 2017

Conclusion

Make the ACT the only test required for admissions and make it free to give all the kids a shot. Miching is a good example: for every 1,000 students who scored well on the optional test, an additional 480 did so on the mandatory test. Jumpforward ten years and you see that Michigan's ACT numbers composite scores are among the highest in the nation and score 3 points above the mean for either years.
